URBAN YOUTH WORKERS INSTITUTE

## 90° CERTIFICATION PROGRAM

Degrees have significance. At 212°, water boils. During commencement ceremonies, degrees represent the culmination of years of educational studies. Through UYWI, it's the resource for creating "right angles" for urban youth worker's when you participate in the new and exclusive 90° Certification Program.

### HOW WILL I KNOW IF I'M A CANDIDATE FOR 90° CERTIFICATION PROGRAM?

If you are a full-time or bi-vocational (dual career) ministry leader, serve youth in urban settings, and could benefit from a specially designed environment for a small cohort of leaders, then you are a great candidate. The 90° Certification Program is intended to provide an intensive, yet rich array of tangible resources, networks and tools for a select group of leaders to execute ministry effectively in his/her community.

### HOW IS THE PROGRAM DESIGNED?

The 90° Certification Program is a 12-month program where enrolled participants meet once a month for a full day of training. Our 90° Certification will allow enrolled youth workers to gain access to a national network of leaders in urban city capacities. Participants get personal access to seasoned veteran urban leaders who have achieved a high success rate in structuring life-changing youth ministries.

Leaders will participate in practical training exercises, get live feedback through corporate dialogue, and receive influential resources that will help shape their leadership and ministry structure. To ensure individual support, 90° Certification will commit a professional coach for each participant to maximize the process of each leader achieving their personal goal.
